

Kinship Carers

We need to hear from you!

- Do you care for someone else's child?
- Maybe under a family arrangement, with or without a legal order, or even as a kinship foster carer?
- Then you're a kinship carer - and your experience matters.

We're developing our Kinship Care Local Offer, and we want you to help shape it.
If you ...

- Have looked after, or do look after a friend or relative's child
- Are a grandparent, aunt, uncle, sibling, other relative or family friend caring for someone else's child
- Are a child, young person or an adult now, who has been raised by kinship carers and want to share your experience and help improve the lives of others?

We want to hear about your experiences and understand what support you need, so we can work together to shape and improve the future for kinship carers.

Scan the **QR code** to register your interest and be part of shaping services that truly reflect the needs of kinship families.
